Sir:

Please enter the below amendments before examining the application.

**IN THE ABSTRACT**

Please amend the abstract as follows:

~~The~~This invention relates to ~~liposomal vitamin A and method of its~~  
~~preparing.~~ the field of pharmaceutical and cosmetics production, mainly  
referring to a new kind of Liposomes which contains Vitamin A and the method  
of its preparation. Vitamin A serves essentially as the biologically active  
ingredient in the Vitamin A Liposome which contains the support substance  
and the lipid ingredients serving as the accessories and the membranes. The  
method is as follows. The Solid Vitamin A pro-Liposome is made from Vitamin  
A and lipid ingredients by adding the support substance. According to your  
needs, Vitamin A Liposomes, the finished product can be obtained through
